EDUCATION

Diploma in Information
Technology [OTHM Level4]

Institute of Advanced Technologies - 2026

Currently Attending | Weekend Classes |
Pathway to UK Bachelor's Degree

Passed Basic Education
Matriculation Examination

2020

SKILLS

- Java, PHP, JavaScript
- Spring Boot, Laravel, Angular, jQuery
- HTML, CSS, Bootstrap
- PostgreSQL, MySQL, MS SQL Server
- Git, Apache Tomcat, REST API, JSON, XML, JMeter, Figma
- Testing, Technical Documentation, Project Planning, UI/UX Design, Customer Support

Professional Summary

Software Developer with 3 years of experience in enterprise software development, banking applications, REST API development, and backend services. Experienced in developing and maintaining Java and Spring Boot applications for web-based enterprise banking systems. Skilled in Java, Spring Boot, Angular, SQL, REST APIs, Git, and web technologies, with hands-on experience in full stack development, application deployment, testing, troubleshooting, and production support.

WORK EXPERIENCE

Developer- NTT DATA Myanmar

Oct 2024 - Present

- Developed and maintained Gateway applications and backend services for enterprise banking systems.
- Developed and enhanced application functions based on business requirements, specifications, and technical designs.
- Understood External Design Documents (ED), prepared Internal Design Documents (ID), MUT, and related technical documentation.
- Implemented assigned coding, debugging, testing, and system enhancement tasks throughout the development lifecycle.
- Analyzed and troubleshooted production issues through log analysis, root-cause investigation, and defect resolution.
- Reviewed technical deliverables, design documents, test cases, test results, and bug/error reports to identify defects and inconsistencies.
- Supported application deployment, maintenance, and production activities, including investigation of incidents and technical issues.
- Collaborated with Japan HQ and Global Engineering Teams to analyze technical issues, coordinate solutions, and support project delivery.
- Managed assigned tasks according to project schedules and worked collaboratively with team members to ensure timely completion.

SOFTWARE ENGINEERING

- Object-Oriented Programming (OOP)
- Software Development
- Enterprise Web Applications
- API Development
- Unit Testing
- Technical Documentation
- Production Support
- Debugging & Troubleshooting

LANGUAGE

Intermediate English

Web Developer – Myanmar Information Technology Pte.Ltd

Sept 2023 – Oct 2024

- Developed and maintained Core Banking and Mobile Banking applications using Java and Spring Boot.
- Designed and developed RESTful APIs for enterprise banking systems.
- Developed Digital Financial Solutions and Mobile Banking Admin Console.
- Participated in software analysis, development, testing, deployment, and maintenance.
- Implemented customer requirements and enhanced existing software features.
- Performed unit testing, debugging, and application deployment using Apache Tomcat.
- Resolved production issues and optimized application performance.
- Collaborated with project teams throughout analysis, development, testing, and deployment.

CERTIFICATIONS

- Java EE, Spring & Angular (Currently Pursuing) – Turing Programming Training Center
- ITIL 5 Foundation Course – Institute of Advanced Technologies (IAT)
- Programming basic – Fairway Technology
- Professional Web UI/UX and Front-End Design – Fairway Technology
- Professional Web Design – Code Lab
- Professional Web Developer – Fairway Technology
- Fullstack Developer Course – Code Lab
